Background. Senate Bill 375 (SB 375), signed by the Governor last year, requires the California Air Resources Board (ARB) to set regional targets for the purpose of reducing greenhouse gas emissions from passenger vehicles, for 2020 and 2035. On January 23, 2009, ARB appointed members to the RTAC created by the bill. RTAC is required to recommend factors to be considered and methodologies to be used for setting regional greenhouse gas reduction targets. The Committee's recommendations are due to ARB by no later than September 30, 2009.

If you have special accommodation or language needs, please contact ARB's Disability Coordinator at (916) 323-4916 by voice or through the California Relay Service by calling 711, to place your request for disability services for this meeting. If you are a
